

Online Accounting & Business Administration **“- a new way of doing business”**

Timothy & O'Connor Chartered Certified Accountants, Statutory Auditors and Chartered Tax Advisers aim to be a finance business partner of choice offering vital assistance to small & medium size enterprises and their owner/managers across the Munster region. While our website describes the principal services we offer, our scope is much wider. We take a holistic view of the enterprise and the entrepreneur who is the driving force behind it, from business strategy to operational effectiveness and profit maximization, from managing risk, regulation and compliance to being a close confidante and someone who understands what success means to you. We adopt a partnership approach with our clients in the daily task of generating and maintaining economic well-being.

At TOC we have adapted our services to the internet age and developed a suite of online Accounting and Business Administration practices that have proved very appealing to startup companies in particular. Companies in the startup phase must cope with a raft of accounting, legal, taxation and regulatory issues all of which distract from the vital work of growing the company. Our unique service fills this gap, let us deal with all these issues before they become a problem. This allows you to concentrate your resources, particularly your valuable management time, on the important business of dealing with your own customers' needs. You will have access to your financial information 24/7 on your own dedicated Online Portal. We can access your bank transactions electronically through internet banking, no more waiting for the bank to send out bank statements. Ask your suppliers to invoice you by email and we can apply our financial robot to post and reconcile these transactions. We can use the power of the internet to reduce unnecessary communication and speed up the accounts reconciliation process, all for the purpose of reducing our response time, producing more timely information and keeping a lid on our cost to you.

You can login anytime and from anywhere and prepare a quote, send an invoice to a customer and much more. Use the analysis reports to track your sales by customer and purchases by supplier and view your up to date aged

receivables and payables and get an overview of your business and its profitability.

Call us today and begin a working relationship to grow your personal wealth.
